RE: XL Project - Local Stakeholder Meeting

DATE: February 18, 1998

Enclosed please find a copy of the complete draft Project XL Proposal submitted to EPA on February 1, 1998. Prior to our local stakeholder meeting, it would be helpful if you could look over two sections that are particularly relevant to UMASS Boston. The first is Section III, component #1. This section gives a brief overview of the component that UMASS Boston will be participating in. The second is the actual Laboratory Environmental Management Standard (tab 4). During our meeting we will review this section in detail and discuss how it will impact UMASS Boston.

Also included is an agenda for the local stakeholder meeting to be held on Tuesday, February 24 at 1:00 pm in the Troy Conference Room. If you have any questions, or if you cannot attend the meeting, please do not hesitate to contact me at 7-5444. Thanks again for your continued cooperation.
